Please describe below the work practices and procedures to be employed in conducting the abatement of asbestos. **BE SPECIFIC.** Indicate type(s) of ACBM to be abated (e.g. VAT, ceiling tile, TSI, etc.). Use another page if necessary.

Permit/Notice Application Form Information and Instructions:

1. There is a 10 working-day (do not count Saturdays or Sundays) waiting period for permit processing. For example: If the application is postmarked or hand delivered to the Division on April 1, 2003, then the earliest start date would be April 15, 2003.
2. If there is to be any deviation from the Colorado Regulation No. 8, then a variance request form must be submitted. Variances noted on the application form will neither be considered nor accepted.
3. Be specific on the types of materials to be abated and the work practices to be used. Give specific types of materials and abatement practices. For example, VAT with critical barriers, -0.02" WC, hand removal using spud bars.
4. All spaces must be filled in on the permit. If the information is not applicable, please write N/A. Incomplete information may result in a delay in processing the application.
5. We must have a building contact telephone number on the permit before it can be processed. Please don't list an employee of the GAC as the building contact since state inspections are unannounced. An employee of the GAC may be listed only if the building is vacant, in a remote area, etc.
6. If there needs to be modifications to the notice after the application has been submitted, notify the Asbestos Unit by fax at 303-782-0278 by the end of the next regular State business day following the modification. Project modifications include changes in scope of work, AMS, supervisor, the scheduled work dates or scheduled work times.
7. Supporting pictures or documentation may be emailed to: asbestos@state.co.us
8. All provisions of laws and ordinances governing this type of work shall be complied with whether specified herein or not. Permits or approval notices presuming to give authority to violate or cancel the provisions of the above laws and ordinances or permits issued in error or based on incorrect information supplied shall be invalid.
